Market leading IT concept

Copenhagen

Senior Business Consultant

You'll have a varied and challenging every day with focus on developing the cooperation with existing Nordic company groups and large organizations. You'll be part of a competent team that makes business critical projects efficient. As you become confident with Multi Support's solutions, your range of tasks will increase. For example, you'll take on the role as project manager of selected customer projects.

MSc (Econ) with ERP knowledge

You bring along a solid educational foundation and a passion for working with IT. This means that you have:

- knowledge of the financial and administrative processes in a larger company
- previously worked in the ERP world, in internal project groups, as business controller, or as the external consultant specializing in optimization of processes

You also communicate fluently in Danish and English, in writing as in speech — and you see an annual travel activity of 30-40 days as an attractive extra dimension to the position.

Energetic, analytic and well-spoken

Your competences and your winning personality are the foundation for you to:

- appear professionally and give the customers value-adding solutions
- identify the relevant optimization projects
- convincingly communicate solution suggestions
- listen to and understand other people — and thus act trustworthy
- work structured and provide the customers a positive experience

Your compensation package

We negotiate your terms individually with flexible working hours, home office and a pension-scheme option. In addition, the "sky is the limit" when it comes to your personal and professional development.
