

it business optimization

Teamlead for international consultants.
Herning or Copenhagen.

Playing coach

As Teamlead you will act as playing coach for a team of experienced, skilled, and ambitious business consultants. The consultants build and implement business critical streamlining projects in organizations throughout Europe. You will — together with your peer in Central Europe — be responsible for developing and coordinating this rapidly growing team of consultants.

The foundation for all solutions is Multi Support's own software - Next. Multi Support Next is a flexible platform for business document and process management. You will be personally involved in selected client assignments — as project manager, senior consultant, or during the pre-sales dialogue.

Multi Support works cross boarder, has offices throughout Europe, and a solid international client portfolio. You will contribute actively to enhance the collaboration inside the company, and externally towards larger organizations. The international element of the job will involve 30-40 travel days per year.

Business knowledge and ERP insight

It is crucial that you have solid knowledge of the financial and administrative workflows in a company. You probably have experience from the

ERP world, internal IT project groups, as business controller, or as external consultant with focus on optimizing workflows. We expect you to have a higher education and that you speak, read, and write Danish and English fluently.

Sharp analytic capabilities, motivating management style, and an outspoken approach

Through your personal efforts, and by inspiring your consultants, you create extraordinary value adding solutions. You are able to see through processes and identify optimization potentials. At the same time, you are skilled at communicating proposed solutions in a persuasive way. As leader and sounding board you create trust by listening to other people — and by making the necessary decisions. You work systematically and balance the role as playing coach by delegating and participating actively as appropriate.

Management by values

Multi Support is not governed by voluminous books of rules and regulations. We believe strongly in shared core values as the guiding principles that dictates our behavior and actions. Unified, Easy, Smart, Respectful, and Ambitious are the 5 paragraphs in our constitution. It is a prerequisite

to buy into the values in order to be invited to the Multi Support team.

The growth has just begun

Everyone in Multi Support recognizes that the company as a substantial growth potential — and every employee has an important role to play. You will have a group of amazing colleagues and together with them you will fulfil your part of the growth ambitions. An ambitious growth strategy comes with many challenges and opportunities for professional and personal development. An attractive salary, access to employee share program, group bonus as well as a pension and care schemes are all part of the individually negotiated package.

Best in class by 2020

At Multi Support we are in the middle of an ambitious growth strategy that during the next five years will move our company from a well-kept secret to a visible and in-demand optimization partner. Based on our in house developed software platform we are helping even the best companies to utilize their ERP system in an easier and smarter way.

Mail your application and CV named "World class workflow" to the consultancy company Lars R uger HR A/S: job@lrhr.dk.

Initial interviews take place on 5 January 2016.

We make companies more efficient and peoples' life at work easier. Replacing more or less manual procedures involving paper documents, Post-its, spreadsheets, emails, and databases, with easy-to-use software. Our Next smart process applications boost corporate efficiency, scalability, and the personal joy of work.

Serving clients all over the world since 1986, through a network of certified partners and own offices in Switzerland, UK, Germany, Sweden, Denmark, Norway, and Finland.
